*This course unit is not validated (ECTS credits not awarded). The academic year is validated by compensation, on the basis of the overall average grade.

NB: *École normale supérieure de Rennes* is one of the most selective French higher education institutions in science and humanities. Students entering ENS are selected from the upper tier of classes préparatoires and universities and ranked in the top 1-5% among French students.

ENS follows the traditional French grading system based on a numbered scale from 0 to 20, 10 being the minimum passing grade. Grades given at our department correspond to the following:

- 16-20: Outstanding
- 14-15.99: Very Good
- 12-13.99: Good
- 10-11.99: Fair
- < 10: Fail

Typical class average lies between 12 and 14/20 and grades above 16 are seldom awarded.

I, Mr Martin QUINSON, Full Professor in Computer Science, Director of the Computer Sciences department, hereby certify that the translation of the transcripts obtained by Mme Alice BOB is true to the original.
